

TruCLEAN™ Wringer

Heavy-duty stainless steel component

22-30
TruCLEAN Wringer

Description

TruCLEAN wringer is designed to exert and distribute pressure evenly, providing effective control of moisture content in sponge and mop heads. Unique wringing action significantly improves release of soiled contaminants when compared to all other designs. Accurately calibrated pressure plates, combined with hundreds of release apertures and natural gravity flow, precisely channel soiled contaminants into waste collection bucket. Easily mounts on cart or in waste containment bucket, no tools required.

#22-30 Dimensions: 19¾" x 7" x 24"

Features

- Ergonomically positioned lever and non-slip grip
- Autoclavable at 121° C for 30 minutes
- Extremely durable stainless steel components
- Designed specifically for use in critical manufacturing environments

Benefits

- TruCLEAN wringer intended for use with TruCLEAN mop frame
- Impervious to most chemicals, will not rust, corrode or oxidize
- Fewer moving parts reduces potential for mechanical problems
- Designed to minimize operator strain

Applications

- Compatible with TruCLEAN Pro, Pro XL and TruCLEAN 2 mopping systems
- Compatible with all TruCLEAN Sponge mops and TruCLEAN Microfiber mops
