Green

Engineered to create an impermeable barrier, SHOWA 737 is an unlined, 22 mil nitrile glove designed for multiple uses and a range of applications.

[FEATURES

- Unsupported, unlined
- 100% nitrile
- 22 mil thick / 0.56mm
- Bisque grip
- 15 in. (380 mm) long

[BENEFITS

- Provides chemical resistance against a broad range of solvents, oils, animal fats and other chemicals
- Mechanical resistance
- Bisque finish grip makes wet work easier and safer
- Ergonomic design maximizes comfort

[INDUSTRY

Automotive

Chemical

Landscaping

Municipal Services

[IDEAL APPLICATIONS

- Light assembly of oil-coated pieces
- Painting and spray workshops
- Chemical spray and treatment
- Coating preparation
- Laboratory, pharma & analysis
- Painting & spray workshops
- Handling plants and vegetable
- Pool /Pond Maintenance
- Washing & cleaning

[USER INSTRUCTIONS

Protection against mechanical risks, with electrostatic properties. Do not use where there are chemical, electrical, thermal or entanglement risks. Wash at 40°C max. Performance levels as per standard EN388 retained after 3 washes, subject to variations linked to actual usage conditions. The performance levels apply to the coated surface only. Store in a dry place, away from the light. All clothing and shoes worn with the glove with electrostatic dissipation properties must also be designed taking the electrostatic risk into account.

Do not use where there are electrical, thermal or entanglement risks. Discard used gloves in compliance with local regulations. Permeation information does not reflect the actual duration of protection in the workplace due to other factors that may influence the performance. Store in a dry place, away from the light.

[DISCLAIMER

The descriptions, characteristics, applications and photos are given for information purposes and do not constitute a contractual commitment. The manufacturer reserves the right to make any modifications it deems necessary.
