

Disposable Wrist Strap

Data Sheet

The 3M 2209 Disposable Wrist Strap provides cost-effective and reliable static protection for less than a dollar. The wrist strap is ideally suited for shipment along with components to ensure protection at the receiving end, or for short-term use in the plant for visitors and others who don't need the durability of a reusable strap.

A hypo-allergenic adhesive provides 360 degree contact with the skin to minimize skin-to-band resistance. At the other end, the conductive adhesive on the copper foil adheres to any convenient electrical ground. A current limiting resistance is fabricated into the plastic ribbon below the wrist band.

Each Model 2209 is individually packaged in a clear poly envelope. Custom printing on a paper envelope is available by special order.

- Make certain that equipment having a grounding type plug is properly grounded.
