### Product Information

Stencil, Squeegee & Misprint Cleaner - *ScreenClean* is a cost-effective cleaner for removing thick-film pastes, partially cured epoxies and most inks used in screen printing operations. Using a strong, shred-proof disposable wipe saturated in a powerful cleaning fluid, it quickly breaks down the molecular bonds in inks and pastes for fast and enhanced cleaning. It is safe on all types of screens and plastics and will not cause damaging fragile emulsions. Its slow drying time allows for a more thorough cleaning. Use for perfectly clean stencil screens and associated machinery, squeegees and work surfaces.
