

Uncured Epoxy Cleaner Expoxy™ Presaturated Wipes

- The strongest stencil cleaner and degreaser
- Removes uncured epoxy, cured chip bonder, grease, solder paste, light oils and some inks
- Dissolves both organic and inorganic deposits, some acrylic
- No rip, no lint, heavy-duty wipe
- Unique “slam-shut” package for extra long service life
- Unlimited shelf-life

Product Information

Uncured Epoxy Cleaner - *Expoxy*, is a versatile cleaner optimized for the removal of uncured epoxy from misprinted boards, stencils and squeegees. Using strong, shred-proof disposable wipes saturated in a powerful cleaning fluid, it quickly removes uncured epoxy resins with minimal effort. Also suitable for cleaning lead-free fluxes and pastes, water-soluble pastes and “no-clean” pastes. In its liquid form, it is a cost-effective choice for use in automatic stencil printers as it requires less solvent due to its highly activated chemistry. This formulation has been tested and accepted by DEK, EKRA, MPM and Panasonic for use in their stencil printers. Uncured Epoxy Cleaner - *Expoxy* is the ideal choice for perfectly clean stencils and screens.

Money-saving refills are available only from *MicroCare* (photo to the right). These contain the same wipes and fluid as the tubs above, but reduce costs and helps protect the environment by encouraging the re-use of packaging.

AVAILABILITY: Stocked by MicroCare distributors world-wide. Contact MicroCare for a distributor near you. For more information contact MicroCare directly or visit www.MicroCare.com.
