

# WORK STATIONS

**Unique Stainless Steel Solutions**

**All Palbam Class products are designed and manufactured according to the following guidelines:**

- Cleanliness – non-particulating and non-accumulating
- Ergonomic and human factors – industry standards
- Functionality of operation
- Design to cost
- Aesthetics, ensuring a high level of operator satisfaction
- Modularity.

**Palbam Class product advantage is found in the small, but so essential, details:**

The frames for the workstations are constructed from round tubing and not square profiles. This is essential, in ultra-cleanrooms with laminar airflow, as it reduces air turbulence, as well as being easier to clean and more ergonomically friendly.

Only the best craftsmen manufacture our products. This is easily recognized by examining the excellent welding and finishing quality.

The whole manufacturing process is ISO certified and conforms to the highest industry standards.

## CLEANROOM ERGO TABLES

Table showing all accessories

### Features:

- Fabrication materials: 304 stainless steel with electropolished finish and Al anodized cleanroom compatible connectors.
- Designed to be shipped "flat packed" - assembly instructions included.
- Assembly time 10 minutes
- Rounded front table tops
- Ergonomic table legs designed to prevent operators "knocking knees" on table
- Height adjustable feet or casters
- All accessories attachable

### Benefits:

- Excellent design conforms to highest cleanroom specifications
- Economical shipping
- User satisfaction guaranteed

## CLEANROOM ERGO TABLES - Solid Top

Palbam Class Cleanroom tables are manufactured to the highest cleanroom standards. The bases are fabricated from tubing for easy cleaning and optimal airflow. The tops are designed to reduce vibrations and are very strong holding up to 80kg.

Palbam Class tables have fixtures enabling all the accessories to be attached at time of purchase or in the future if the need arises.

Accessories include top & bottom shelves, drawer units & keyboard holders & the flat screen holders.

Fabricated from stainless steel 304 with electropolished finish and anodized aluminum connectors.

The tables are shipped flat packed with easy assembly instructions.

Options:

Lengths: 600 - 2000mm

Widths: 600 or 760mm

Heights: 750 or 900mm

Custom sizes are also possible.

We use stainless steel **304L** which is electro-polished. We think this is suitable for most cleanroom requirements. However sometimes customers insist on using sst **316L**. This is possible. You just have to add X after the catalog number.

## CLEANROOM HEAVY DUTY TABLE

- The Cleanroom Heavy Duty Table is designed for more robust and heavy duty activities.
  - This sturdy workstation is available with either solid or perforated tops together with all the accessories.
  - Table is designed to be delivered **Flat Packed**.
  - Assembly instructions included.
  - Assembly time 10 minutes.
  - Fabrication material : 304 stainless steel, electropolished.
  - Standard tables include adjustable feet. If you require casters instead of feet, simply write CASTORS - after the catalog #.
  - 316 stainless steel available upon request.
- 
- Palbam Class tables are designed for comfortable use. The standard 900mm/35.4 inch height allows work to be performed standing or sitting, and allows the comfortable attachment of all undershelf accessories.
  - 750 mm height also available.
- 
- To order tables outside of standard dimensions, contact us for details.

We use stainless steel **304L** which is electro-polished. We think this is suitable for most cleanroom requirements. However sometimes customers insist on using sst **316L**. This is possible. You just have to add X after the catalog number.

## CLEANROOM HEAVY DUTY TABLE - Solid Top

Palbam Class Cleanroom tables are manufactured to the highest cleanroom standards. The bases are fabricated from tubing for easy cleaning and optimal airflow. The tops are designed to reduce vibrations and are very strong holding up to 100kg. Palbam Class tables have fixtures enabling all the accessories to be attached at time of purchase or in the future if the need arises. Accessories include top & bottom shelves, drawer units & keyboard holders & the flat screen holders.

Fabricated from stainless steel 304 with electropolished finish and anodized aluminum connectors. The tables are shipped flat packed with easy assembly instructions.

Options:  
Lengths: 600 - 2000mm  
Widths: 600 or 760mm  
Heights: 750 or 900mm

Custom sizes are also possible.

We use stainless steel **304L** which is electro-polished. We think this is suitable for most cleanroom requirements. However sometimes customers insist on using sst **316L**. This is possible. You just have to add X after the catalog number.

To add 5" cleanroom casters to the tables add C after the catalog number.

We recommend adding casters to the 750mm / 30" height tables as this brings the table height to almost 900mm / 36"

## CLEANROOM HEAVY DUTY TABLE - Perforated Top

Palbam Class Cleanroom tables are manufactured to the highest cleanroom standards. The bases are fabricated from tubing for easy cleaning and optimal airflow. The tops are designed to reduce vibrations and are very strong holding up to 100kg. Palbam Class tables have fixtures enabling all the accessories to be attached at time of purchase or in the future if the need arises. Accessories include top & bottom shelves, drawer units & keyboard holders & the flat screen holders.

Fabricated from stainless steel 304 with electropolished finish and anodized aluminum connectors. The tables are shipped flat packed with easy assembly instructions.

Options:  
 Lengths: 600 - 2000mm  
 Widths: 600 or 760mm  
 Heights: 750 or 900mm

Custom sizes are also possible.

We use stainless steel **304L** which is electro-polished. We think this is suitable for most cleanroom requirements. However sometimes customers insist on using sst **316L**. This is possible. You just have to add X after the catalog number.

To add 5" cleanroom casters to the tables add C after the catalog number.

We recommend adding casters to the 750mm / 30" height tables as this brings the table height to almost 900mm / 36"
