

Features

- No electricity
- Handlebars to provide extra stability for users
- Easy two track reloading system
- High volume compacity
- Eliminate benches and stools in tight areas and lessen cleaning time by removing bench furniture completely.

Description

This high-capacity automatic shoe cover dispenser is stationary, non-electric shoe cover dispenser that is intended for medium to high volume facilities. This stainless steel machine can hold up to two bundles of shoe covers. The inside of the machine features a two track system which allows for easy bulk reloading. Your facilities can eliminate the need for stools and benches.
