Our patented Rhino Plus™ covering combines ultra-durable urethane over molded foam for all-day comfort and cleanability.

No other Med-Tech seating brand offers anything close to the year-over-year durability and all-day comfort of R+ Technology. Our thick, yet supple, urethane covering is resistant to punctures and tears while the molded foam cushion provides consistent support through long work days.

NON-SLIP + ACTIVE SEATING

Today's Med-Tech environments require seating that moves with the user, providing a stable work platform. The R+ covers and slightly raised ridges provide just enough grip to allow users to lean forward and maintain a comfortable posture without the slipping often associated with vinyl and synthetic fabrics.

// Unique non-slip texture

// Maintain forward-leaning posture

// Higher friction coefficient than vinyl

Anti-Microbial & Anti-Bacterial

The demanding nature of Med-Tech environments means seating surfaces need to meet high standards of performance and function. R+ features anti-microbial and anti-bacterial seamless construction to protect against dirt and impurities. It's textured exterior provides for easy cleaning.

- // *Seamless chemical resistant molded cover*
- // *Soil & stain resistant*
- // *Cleanable with bleach, ethanol or other harsh chemicals*

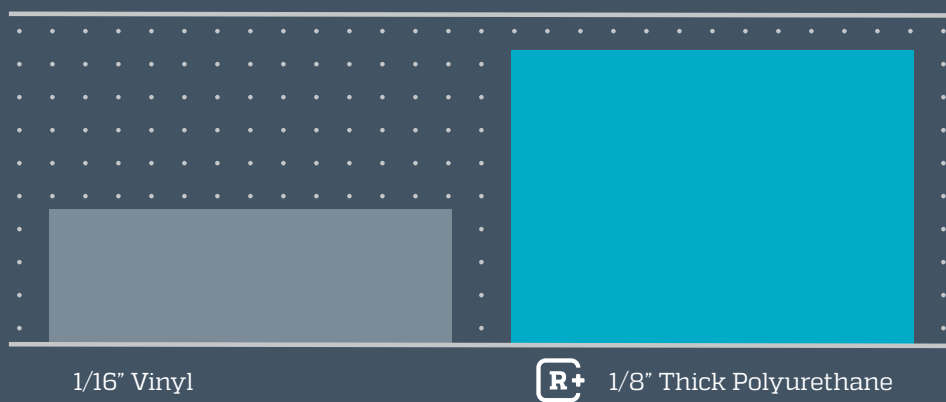

Ultra-Durable Construction

- // *Puncture & tear resistant*
- // *1/8" thick polyurethane*
- // *3" thick premium molded foam*

CRAMER R+ TECHNOLOGY OUTPERFORMS TRADITIONAL VINYL COVERINGS

MATERIAL THICKNESS

1/16" Vinyl

R+ 1/8" Thick Polyurethane

Fusion® R+

The chair that sets the standard for versatility in Med-Tech environments.
Shown in Graphite.

Fusion® Fit R+

Slightly smaller footprint, same quality and proven performance.
Shown in Fern.

R+ Technology

**UNMATCHED IN COMFORT, DURABILITY
& CLEANABILITY.**

Fusion® Round Stool R+

Wider arc of movement, still with flexible ease and comfort.
Shown in Sky (with back).

Triton® R+

Setting the standard in durability.
Shown in Black.

RHINO PLUS™ SETS THE STANDARD FOR SEATING IN SENSITIVE ENVIRONMENTS.

R+ is now available in four all-new colors.

// **Black (252)** // **Sky (262)**

// **Graphite (282)** // **Fern (272)**
