### TECHNICAL DATA SHEET

#### Description

Texwipe's ClipperMop™ is designed in two sizes to use any standard 9" x 9" or 12" x 12" cleanroom wipers.

The ClipperMop™ system may be used with dry, pre-wetted, sterile or non-sterile wipers.

The ClipperMop™ includes the Celcon® thermoplastic mop head with clips and a flexible polyester pad for better wiping efficiency. Each mop has four polyethylene clips tethered to the mop head with nylon fasteners. The clips are non-abrasive and do not release particles and fibers when securely attaching one or multiple wipers to the head.

The replaceable polyester foam pad ensures that the mop conforms to uneven surfaces.
