Engineering Controls

Ventilation	Keep airborne concentrations below the occupational exposure limits (OEL). The zinc oxide and silica dust are bound in the grease matrix and are not available as a respiration hazard under normal conditions.

Personal Protective Equipment

Eye protection	Wear appropriate protective eyeglasses or chemical safety goggles. **RECOMMENDATION:** Ensure that glasses have side shields for lateral protection.
Skin Protection	For likely contacts, use of protective nitrile gloves or other chemically resistant gloves.
Respiratory Protection	For over-exposures up to 10 x OEL of dust and fumes, wear a an approved respirator with particulate filer that meets local, regional, and national standards. **RECOMMENDATION:** Consult your local safety supply store to ensure that your respirator has a NIOSH (U.S.) approved filter cartridges appropriate for the ingredients listed in Section 3. The respirator should be fitted to the employee by a professional.

General Hygiene Considerations

Wash hands thoroughly with water and soap after handling.
