Description/Title:

New HAKKO FT-630 Wick Cutter

Part No:

FT630-55

Comments:

The HAKKO FT-630 Wick Cutter is an industry first, allowing you to quickly and cleanly trim solder wick without the need to reach for cutters. The enclosed cutting system collects the trimmings which mitigates debris on the workbench. The FT-630 can cut most common sizes of wick, even when loaded with solder, and can also be used to pre-cut the wick to selected lengths for use.

Specifications:

Model	FT-630
Part No.	FT630-55
Rating	24 VDC 170 mA
Power Adapter	Input: 100-240VAC Output: 24VDC 200mA 4.8W
Compatible Wick Size	0.7 to 3.8 mm
Cutting Length	2.5 to 30 mm
Dimensions (W x H x D)	100 x 61 x 92 mm (3.9 x 2.4 x 3.6 in.)
Weight	280 g (9.9 oz.)
ESD Safe	Yes
