

# 5075 Static Dissipative ESD Wastebasket

**Product# 5075:** Gray only  
11-gallon can (5 per case)

## *Safe for ESD protected areas*

The 5075 Static Dissipative Wastebasket is ideal for cleanrooms, manufacturing, inspection, quality control, and research industries where static control is crucial. This sturdy, high-density polyethylene container dissipates static electricity and does not tribogenerate. It contains no carbon, dyes, or additives that slough or outgas, making it suitable for all applications demanding cleanliness.

The resistance of the wastebasket measures  $10^9$  -  $10^{11}$  ohms. The electrical properties are under warranty for one year from the date of purchase.

Polyethylene anti-static trash can liners are available in pink and black. The average resistance of the liners is  $10^{10}$  ohms. Static decay rate is less than two seconds.

### **Ideal for the following applications:**

- ESD protected areas
- Automated assembly lines

### **FEATURES:**

- ❖ Linear high-density polyethylene
- ❖ 13" diameter rim x 21.75" high
- ❖ 11-gallon container
- ❖ Will not tribogenerate
- ❖ Will not outgas
- ❖ Accepts conductive bags and anti-static bags
- ❖ No carbon or dyes
- ❖ No silicone or plasticizers

**Product# 5076:** Pink liner  
24" x 34" (50 per bundle)

**Product# 5076B:** Black liner  
24" x 34" (50 per bundle)

### **Maintenance:**

Clean with #6001 Mat & Table Top Cleaner to protect electrical properties. Use #2003 General Purpose Staticide for added protection.
